

# Joerg Schlonies

## Lead Concept Artist

Hello, my name is Joerg Schlonies, I began my professional career in art as a character designer and concept artist by founding my own art studio „doJoerch“ in 2010. In that time I focused strongly on concept design for fantasy projects. Additionally I became a lecturer for traditional drawing techniques in state prison Dieburg and for Digital Painting in comprehensive school Rüsselsheim. Today I level up my skills in 3D concept design by using tools like zBrush to give my characters more true-to-life expression.
